- PoynterServices.com 06/03 – 05/06

**General Attributes**

- **Reliable** – Two years experience organizing 20 large and successful events. Their success depended entirely on my planning, organization, attention to detail, and persistence.
- **Motivated** – Started two technology businesses. Customers include universities across North America like Brown University, Cornell University, Northwestern University, University of Michigan, etc. Was a member of the Purdue University 5K running club.
- **Creative** – Won prestigious national MacArthur Young Innovator award. Created 150 member collective of installation artists at Purdue University. Organized public art spectacles. PBS Frontline showed one to 3.1 million people: <http://danielscottpoynter.com/projects>
- **Excellent Communicator** – Led workshops at over 20 university campuses. Exceptional written and verbal presentation skills. Use proper grammar. Published author.
- **Self-directed** – For my second company I invented a market instead of joining a pre-existing one. This company sold a game I invented to academic libraries. Lived in Washington DC and partnered with a non-profit to market another game I invented to high schools.
- **Efficient** – While working with the Purdue University College of Science I reduced their number of Dreamweaver templates from 40 to 8 and converted their web applications from ASP to PHP.
- **Problem Solver** – Training in philosophy makes it easy to break problems down into solvable parts.
- **Outgoing and Social** – Get along well with co-workers. Love networking and meeting new people.
